Regional CCR&R Services (FY22)

Working families who received education and assistance finding child care (# of children served): **1,285**
Child care classrooms/homes that received technical assistance to improve/maintain their quality: **326**
Child care professionals who received training and professional development: **1,197**

Service Highlights:

Parent after receiving referral services: **"I learned so much during the call from the referral specialist today. I never thought about all the questions you could ask the centers and what to look for. I feel more confident about finding care for my first child."**

Professional development participant: **"I feel wonderful about what I have learned. I took this class so I could learn more about Early Childhood Education. This has given me a lot of information that I can use right away to make positive changes in how I interact with children. I learned how important it is to play with kids, not just be present. So often we get busy with things and distractions that it is hard to truly be engaged. I will strive to be more involved and interact with the children, not just being a caregiver, but to be more involved in everything they do."**

Child Care Provider who received technical assistance: **"She is always bringing new, fun & innovative ideas to our child care center. She is very informative on updates as well as a refreshing reminder of local and state requirements."**

Child care resource and referral (CCR&R) services across North Carolina are funded by a variety of sources including the North Carolina Division of Child Development and Early Education, local Smart Start organizations, child care, and other businesses, community agencies and private philanthropy (individual, family, corporate and community).
