North Carolina relies on quality child care to support children's healthy development and learning, allow parents to work, and keep businesses running. Yet, child care is in crisis—one that has been decades in the making and was exacerbated by the pandemic.

Join us for a conversation on how to come together to solve the crisis.

We will view Take Care—a new short documentary that examines North Carolina's child care crisis through the voices and stories of our families, child care providers and teachers, and business and community leaders. Take Care provides firsthand accounts of how child care impacts all of us; how communities are trying to address the crisis; and the need to work together to create lasting solutions.

Following the documentary, we will host a community conversation with a panel of early childhood education experts about creating lasting solutions

Please RSVP by Wednesday, March 19.
